Beautiful Scenery-Neighboring Resorts-The Chantanqua.

SHER, VA., August 1.—(Special.)—mountains of Virginia contain many The mountains of Virginia contain many charming summer resorts. The most fastidies may be suited, both in mineral waters and picturesque scenery. But it case seem as if the neighborhood about Goshen is the most favored in these beautiful meantains. Like its namesake in Goshen is the most favored in these beautiful mountains. Like its namesake in Faypt, it is a land of promise. The beauty of the landscape scenery, stretching out around-about this little village, is unsurpassed, and the rugged grandeur of the historic Goshen Pass cannot fall to impress one with the sublimity of nature, unadorned by the hand of man. Here on a bluff, overlooking the village, is the Hotel Alleghany, one of the most elegant hotels in its construction and equipment to be found in the whole Bouthland. The elevation is 2000 feet above the sea-level. Near-by are the Rockbridge Alum, Cold Sulphur, and other health-giving springs. It was not generally known that the Alleghany would be open this summer, and, indeed, it was not until two weeks ago. How-

Specific case. In the same length of time their lears have decreased ton million dollers and their decosites have fallen off \$2,97,160. This will acrost of show the effect of the heavy changes which have been reported since the million dollers, and their decosites have such the heavy changes which have been reported since the million dollers, as a reflection of causes which have been expectably in deposits, as a reflection of causes which are incident to a panic for a season of gloomy uncertainty. Loans contracted \$4,700,000, which of liself is not a favorable feature, and the total deposits have fallen off \$3,84,200. A discrepancy of between three and four millions thus appears. But, on the other hand, it is known that the withdrawal of deposits for payment into the Trassury, as is usually the case at the end of a month like July, have been heavy, and part of the discrepancy, at least, is thus accounted for. Estimating the withdrawals for these purposes at \$3,000,000, it will be seen that the contraction in loans and the amount named make a total which almost equals the contraction in loans and the amount named make a total which almost equals the contraction in loans and the amount named make a total which almost equals the contraction in loans and the amount named make a total which almost equals the contraction in loans and the amount named make a total which almost equals the contraction in loans and the amount named make a total which almost equals the contraction in loans and the amount named make a total which almost equals the contraction in loans and the amount named make a total which almost equals the contraction in loans and the amount named make a total which almost equals the contraction in loans and the amount named make a total which almost equals the contraction in loans and the amount named first supplied that argument for supplied the withdrawals for these purposes at \$3,000,000, it will be seen that the contraction in loans and the amount named make a total which almost equals the contracti

operations which have been described in explaining the loss of deposits. The interior movement did not not the banks more than a million and a half, at the very outside—in fact, the actual amount must have been less, but accepting the larger figure as a basts of calculation, and adding it into the total gain of legals, it will be seen that the net gain, after deducting the losses, would not vary much from the published figures in the statement. As a result of the week's operations, the reserve decreases \$770,500, and now stands at \$17,728,600 above legal requirements. Table:

dealing through it. The need met by the department has never been more pressure than at present.

The losses suffered by security-holders during the recent disturbance in the financial world have been enormous. The shrinkage in values has reduced the capital of thousands to a point where further investment for the purpose of regaining that which has been lost may be the final cast. It is here that the investors Chartered Company stands between its clients and that danger, doing away with risk. The success which has attended this extension of the company's business has been most gratifying to the company and its clients. The benefits secured to the latter have been exceptionally marked of late. When their judgment has been wrong they have been protected from loss; when right, profit has been their. The company will be pleased to explain at its counting-rooms or by mail the methods of its guarantee department.
